FISHING FOR EUROPES BIGGEST SALMON AT RAJAMAA IN LAPLAND 2017

Salmon and sea-trout come up the Tornio River system all the long way from the Baltic Sea. The rivers are called Tornio (Torne) and Muonio, and they are of tradition the most important salmon-rivers in the Baltic area. Famous for holding the biggest of all Atlantic Salmons.

The last years the amount of salmon in the river has increased dramatically. Due to stronger regulations in the sea-fishing, especially the 2008 prohibition of drifting nets in the Baltic, the rivers are coming back in old shape again. This is one of the most thrilling fishing areas

for Atlantic salmon. The salmon are caught, from the shores and standing on the smaller islands. The size of the salmon goes from 5 kg to around 30 kg for the biggest ones... The fishing is done around the clock as the sun never sets, the Midnight Sun....

During your stay it is possible to try our excellent grayling waters. The wetlands have very many lakes, and these hold a lot of perch and pike.

During some days you will, far away from the everyday worries, experience the genuine fascinating Lapland where man still lives in harmony with nature. The Malmström family, hosts at Rajamaa since the start 1986, welcomes you as our guest.

Season week 26 – week 34

Preliminary changing day during 2017, Saturdays in Rovaniemi (RVN) and out Kittilä airport (KTT). Please check before booking any flights!!
